

PRODUCT TECHNICIAN

Are you looking to join a small and thriving company? Do you value teamwork, accountability, and want your voice to be heard? Are you seeking a fun-loving, hardworking, and professional work environment with high bi-lateral expectations? Are you excited to be part of a tight-knit and highly motivated team in a beautiful creative office environment? If so, Krownlab might be exactly what you are looking for!

WHAT WE DO

Krownlab is recognized for its innovative, world-class architectural hardware. Our award-winning products are American made, developed and assembled in our NW Industrial headquarters, and shipped worldwide. Click [here](#) to learn more about [Krownlab](#).

JOB DESCRIPTION

The Product Technician team is responsible for the quality assessment, assembly, packaging, and shipping of the company's products. The team is also responsible for performing a limited number of modifications and configurations of assembled products per customer orders. Each position within the team of four people is to every extent possible catered to individual strengths and interests. Work follows defined methods, and practices safe work habits to ensure it is performed efficiently and safely. This is a physically active job that requires prolonged standing.

KEY RESPONSIBILITIES

- Receiving and Quality Assessment of in-coming manufactured components.
- Modification and finishing of received inventory using metal manufacturing equipment.
- Light product assembly using typical shop hand tools.
- Pick inventory and package products.
- Coordinating shipment of customer orders.
- Maintaining a clean, safe, and highly organized work environment.

CORE COMPETENCIES

- Detail Oriented: You have a keen eye for details, but you don't get lost in them.
- Organized: You are **highly** organized, and therefore understand the need to constantly focus on this.
- Maker and Tinkerer: You are mechanically inclined and have an interest in - and an understanding of - how things work.
- Time Management: You are dependable and have the ability to work efficiently to stay on task and schedule.
- Highly Adaptable: You can shift gears without losing momentum and are able to work within business scheduling needs.
- Self-Starter: You are able to take initiative in order to manage your time and successfully perform your work.
- Positive: You are positive, honorable, and self-aware. You embrace challenges and find ways to improve outcomes.
- Teamwork: You can successfully operate independently and in a group. You bring energy and seek team engagement.
- Prompt and Reliable: You are on time and ready to begin work when the day starts.

TOP REQUIREMENTS

- High school diploma or General Education Degree.
- Ability to lift 60 lbs. with assistance and able to utilize fine motor skills for prolonged periods of time.
- Experience with shipping software in general - and FedEx and freight brokers in particular - is a big plus.
- Ability to read and understand dimensional drawings, and able to communicate fluently in English.
- High level of comfort around warehouse tools, including pallet jacks, ladders, utility knives, torque wrenches, heat sealers, tape guns, etc.
- Experience with metal chop saws, drill presses, mills, lathes, and other metal manufacturing equipment is a plus.
- High level of comfort with mobile phone operating systems, and web interface is required.
- Capable of having fun while still getting work done!

WHY YOU'LL LOVE WORKING HERE

- Flexible hours. Work around your schedule!
- Highly motivated and fun-loving team in a beautiful Creative Office environment.
- Great support and training to ensure solid on-boarding and continuous growth.
- Competitive pay and annual financial Bonus Program based on company profit.
- Comprehensive benefit package including:
 - Excellent holiday and paid time off.
 - Retirement saving plan with generous employer matching.
 - Optional and affordable health, dental, vision and life insurance.

PRODUCT TECHNICIAN

POSITION

Full-time position offering 35-40 hrs./wk. with a flexible work hour schedule. No overtime required. Company hours are typically Monday through Friday from 8am to 6pm. Starting compensation range is \$17-\$21/hr. dependent upon experience and skill level, with competitive pay raises over time.
