Job Description

Product Technicians are involved in the assembly and packaging of the company's products. Product Technicians are also involved in a limited amount of modification of metal parts. The position follows defined work methods and practices safe work habits to ensure the work is performed efficiently and safely. Prior assembly and manufacturing experience are preferred but not required. This is a physically active job that will require lots of standing.

Responsibilities

- Product assembly and packaging.
- Report quality control issues.
- Power tool usage including metal chop saws and drill presses to perform cutting and drilling operations.
- Perform basic equipment and facility maintenance procedures. Maintaining a clean, safe, and highly organized work area.

Competencies

- Detail Oriented: You have a keen eye for details but you don't get lost in them.
- Organized: You are **highly** organized, and therefore understand the need to constantly focus on this.
- Maker and Tinkerer: You are mechanically inclined and have an interest in - and an understanding of - how things work.
- Time Management: You are dependable and have the ability to work efficiently to stay on task and schedule.
- Highly Adaptable: You can shift gears without losing momentum and are able to work within business scheduling needs.
- Self-Starter: You are able to take initiative in order to manage your time and successfully perform your work.
- Positive: You are positive, honorable, and self-aware. You embrace challenges and find ways to improve outcomes.
- Teamwork: You can successfully operate independently and in a group. You bring energy and seek team engagement.
- Prompt and Reliable: You are on time and ready to begin work when the day starts.

Requirements

- Ability to lift 60 lbs. with assistance and able to utilize fine motor skills for prolonged periods of time.
- High school diploma or GED equivalent, and able to communicate fluently in English.
- Ability to read and understand dimensional drawings.
- High level of comfort around tools and can safely operate pallet jacks, ladders, utility knives, and other equipment like torque wrenches, heat sealers, tape guns, metal chop saws, drill presses, and other production equipment.
- Fork lift experience is a big plus. Training and certification will be provided for the right candidate.
- High level of comfort with mobile phone operating systems, and web interface is required. Experience in Microsoft Office in general - and Excel in particular - is a big plus.

Why You'll Love Working Here

- Right off the i405 with plenty of street parking, and close to bus stops on routes 15 and 77.
- Fun-loving, **hardworking**, and professional work environment with high expectations.
- Friendly, small, and highly motivated team in a beautiful creative office environment.
- Flexible hours, competitive pay and performance bonus plan.
- Personal Time Off accrual and availability starting first date of hire.
- Comprehensive benefit package available after 12 months of employment, including:
 - Retirement saving plan with employer match.
 - Optional and affordable health, dental, vision and life insurance.

Position

This is a part-time position, approximately 20-25 hrs./week, with potential increase as demand increases. Company hours are Monday through Friday from 8:30am to 5:30pm. Monday and Tuesday availability is required, with remaining schedule being flexible. Starting compensation range is \$12.50-15.00/hr. depending upon skill level. 3-month full compensation range is \$14.00-17.00/hr.
